Full Stack Developer | MERN · React.js · Next.js · Node.js · Supabase (PostgreSQL) · Docker · Redis

PROFESSIONAL SUMMARY

Driven Computer Science undergraduate with full-stack development experience across the MERN stack and Supabase (PostgreSQL), including real-world projects with Next.js, Firebase, Redis, and Docker. Currently completing a 14-month Full Stack Web Development program at SMIT — Saylani Mass IT Training, Karachi. Proficient in building end-to-end web applications from responsive, UI/UX-focused React.js frontends to scalable Node.js/Express REST APIs with Redis caching and Docker containerization.

TECHNICAL SKILLS

Frontend: React.js, Next.js (Basic), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Hooks, Context API, UI/UX Principles

Backend: Node.js, Express.js, REST API Design, JWT Authentication, bcrypt, Middleware, MVC Pattern

Databases: Supabase (PostgreSQL), MongoDB, Mongoose ODM, Redis (TTL, Caching), CRUD Operations

Cloud & Deployment: Firebase (Hosting, Auth, Storage), Vercel, MongoDB Atlas, Docker, Docker Compose, Containerization

Tools: Git, GitHub, Postman, Vite, npm, VS Code, Framer

TECHNICAL PROJECTS

Instagram Clone – Social Media App | *Vanilla JS · Supabase (PostgreSQL) · Firebase*

- Built end-to-end Instagram-inspired social media app with user auth, post creation, image upload, edit/delete, and protected feed
- Designed schema via Supabase (PostgreSQL) with relational users-posts joins, Supabase Auth for session management, and Supabase Storage for CDN-backed image hosting
- Implemented CRUD operations with user-scoped authorization and real-time feed rendering
- Deployed live on Firebase Hosting (cloud platform) with full production environment

Live: <https://insta-app-eb863.web.app/> | GitHub: <https://github.com/usmanali0805/Social-Media-App>

Luxora – E-Commerce Web Application | *React.js · Tailwind CSS · REST API*

- Developed fully responsive e-commerce frontend with dynamic product listings, category navigation, real-time search, and product detail pages
- Integrated external product APIs with async data fetching, error handling, and optimized rendering
- Applied UI/UX principles and mobile-first design with Tailwind CSS achieving consistent cross-device layout

GitHub: <https://github.com/usmanali0805/luxoraa>

Node.js Authentication System | *Node.js · Express.js · MongoDB · JWT · Redis · Docker*

- Built production-ready auth REST API with JWT issuance, bcrypt hashing, and protected route middleware
- Implemented Redis TTL-based token blacklisting for secure logout and session invalidation
- Containerized with Docker and Docker Compose for consistent dev and production environments; deployed on Vercel

GitHub: <https://github.com/usmanali0805/backend-deployment> | Live: <https://backend-deployment-cpkk.vercel.app/>

ChatGPT Clone | *React.js · TypeScript · Next.js · Vite · AI API*

- Built AI chat application with real-time responses, Local Storage chat history, and global state via React Context API
- Integrated external AI API with async handling, error boundaries, and type-safe TypeScript interfaces

Live: <https://usmanali0805.github.io/ChatGPT-clone/>

TRAINING

Web Development (Full Stack)

Saylani Mass IT Training (SMIT) | Zaitoon Ashraf IT Park, Karachi | Jan 2024 – Present (14+ months)

- Comprehensive full-stack training covering HTML, CSS, JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, and Supabase (PostgreSQL) — ongoing industry-focused program

CERTIFICATIONS

Responsive Web Design — freeCodeCamp | 2024

JavaScript for Beginners — Simplilearn / SkillUp | 2024

EDUCATION

Bachelor of Computer Science — Federal Urdu University, Karachi Feb 2024 – Present

Intermediate (Computer Science) — PECHS Boys Govt. Degree College, Karachi 2021 – 2023

Matriculation (Science) — Hira Public Secondary School, Karachi June 2021
